DETAILED ACTION

Response to Amendment

1. The rejection of claims 1-21 and 23-24 under 35 USC 112, first paragraph, is withdrawn based on applicant's amendment to the claims.

Allowable Subject Matter

2. Claims 1-21 and 23-25 are allowed.
3. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance is the inclusion of the following limitations in each independent claim directed towards providing an improved network monitoring system related to an event database and plurality of monitoring devices at remote locations on the network where the event is one of a primitive even, a database event or a temporal event:

“ distributing the event database to a plurality of remote network locations, wherein each remote network location stores a local table containing event data generated at the remote location and one or more replica tables containing event data generated at other remote locations, and

wherein a union of the local and replica tables is generated to form a combined event database at the remote location; and using triggers and local and replica table unions during delivery of event data to users of the network monitoring system wherein the local and replica tables update one another when

Art Unit: 2455

the event data of one of said tables changes.” (as from claim 1, similar limitations in each independent claim)

This subject matter when considered as a whole is not found in the prior art, nor is it obvious in view of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
